

Mini Chopper Project Report - Monthly

School / Sponsor: MPSD Team/LTC

Date: 11/30/09

1 WORK DONE TO DATE: We have completed Autocad and are almost finished with the overall design of the chopper. To this date our design theme consists of: Incorporating a theme to the bike, using wind, solar energy, and nuclear items on the bike. As of now, we have started the machining process and plan on fabricating the frame and assembling the engine.

2 ISSUE(S) ENCOUNTERED & SOLUTION(S): Problems with Autocad and understanding all of its functions in the designing process.

3 REQUEST FOR ASSISTANCE : We would appreciate a list of people and their titles pertaining to the mini chopper project to identify who to contact in regards to purchasing and selling items and who to contact for specific assistance.

4 NEXT STEPS: Machining and assembling the chopper frame.
