

Mini Chopper Project Report - Monthly

School / Sponsor: Mishicot High / Manitowoc Ice

Date: 2/28/10

1 **WORK DONE TO DATE:** Up to this point we have the right measurements and angles to start putting the frame together. We got the frame bent and tack welded it all together. We also got the majority of our parts ordered for the assembly part of the chopper. We have our engine running and working properly.

2 **ISSUE(S) ENCOUNTERED & SOLUTION(S)** - Putting together the wiring harness was a challenge.

3 **REQUEST FOR ASSISTANCE**

4 **NEXT STEPS** - welding frame
- mounting brackets for everything
- Paint
